

Satellite Symposium + Lunch  
European Islet Study Group, 2026

# Advancing Metabolic Research: Mechanisms of Action, Models, and Clinical Challenges

Join us on

Thursday 18 June - 14:30-15:30

Room: Marie Curie

**Jörgen Dahlström**

CEO, Mercodia

Introducing the Mercodia Metabolic Research Award

**Amalia Gastaldelli**

Institute of Clinical Physiology, CNR, Pisa, Italy

The Metabolic Action of Glucagon

**Diego Balboa**

University of Helsinki, Finland

Accelerating Diabetes Disease Modeling: Direct Genome Editing in Stem Cell-Derived Islets

**Ditte Hermann**

Copenhagen University Hospital - Bispebjerg, Denmark

Large-scale Immunoassays in a Clinical Laboratory

**Mercodia Metabolic Research Award**
